A decent match game with a few twists on the genre and definitely more casual play if you prefer. I bought it on sale for 1.99 and played for over 8 hours (to 100%) and as such I definitely got my money's worth. I try and get 1 hour of play for USD\$1 I spend.

That said, it can get repetitive after a while and the trophy levels especially seemed rehashed. This is a genre prone to repetition, however, so I adjust my score accordingly... 7/10. You cant mod the cars they come pre modded. Frustrating as hell!!! I love it, this game will do my wifes head in.. I think I will end up dreaming about this game as I slowly go mad.. :). This game is too hard i cant get past Crete you should make so that you can call in any reinforcements not the ones you get and the artillery is the same for example the LEFH 18 had a muzzle brake and shorter barrel. Also make it so that you can play any mission in any era of war. if you fix this then i will give it a thumbs up.. Oh yeah!!! Dirtbag! No, she don't know what she's missing!. horrible i want a refund. These kind of games a wonderful. Nearly like a detox of gaming. I tend to bury myself in MMORPGs and sandbox games in general. Having a small contained game that can be completed fairly quickly feels good, especially ones as clean, crisp, and interesting as this one. It's very short, but quite potent. I've only completed it once and I feel like there are other endings so I'll be jumping back in soon.. Colorful and cozy puzzle adventure with nice time travelling mechanic. I have really enjoed it. Puzzles are not very difficult to solve, but I don't see it as a problem.

Why my game graphics is bugged, i dont recomend this game if it's not playable

[.Sad,that there are no achievements in steam. But otherwise good game.. I Loved how simple the controls are Plus the game is hard but not too the point of rage quitting. The game is also very creepy and yet like a thing that would really exist unlike FNAF. Plus how the game is NOT a FNAF fan game and how organig the game is. Good job devs cannot wait for 123 sms 3. Once you go tomatoe, you never go back. Now this game, I only bought it for the original Incoming as many others did as well, so I will review the first game as i didn't bother to play much into Forces.](#)

[Short review: Just get it if you like fast paced Arcade Shooters with an okay story.](#)

[Long review: The game itself is a pretty straight forward Attack/Defense game where you can control various air and ground vehicles, and sometimes also can control several units in a strategy minigame in the story. While the Arcade mode is what the name says, just flying around with an airplane and collecting points. Imagine the game being 'Alien Invaders' with 3D graphics and more variation on vehicles to choose from. The story btw is nothing which will blow you away, just the generic 'Aliens invade Earth' story, but the way the gameplay works here, i recommend a gamepad, best experience, and your triggers won't work if you play with xbox pad, but other than that you don't need much buttons anyways.](#)
